Hi Misty,

Please paint it out. I spoke to Melinda Alatorre, our former Field Rep, a student from Franklin High School painted that utility box as part of a project that CD 1 funded. We are fine with having it painted out as it as been defaced with graffiti.

Subject: Utility Boxes

Dear Misty,

Here are the steps we have taken so far in addressing stubborn graffiti on two of the utility boxes in the district at 54 Street and 58th street .

- We had our supervisors try to use graffiti remover to wipe off the painted graffiti, but that did not work.
- We also called 311 and reported this to the graffiti removal services of the City and they have not responded. The latest request has a service number 1-476042271

There are two options left.

- We can send out a pressure washing crew to try to remove it with the power wash and cleanser. I don't know if that will damage the mural and printing that is under the graffiti but it might. I can put a pressure wash crew in the district for the 4 hour

minimum of \$440. They can hit both boxes and still have some time leftover to may hit a few spills and hot spots during the shift.

-The last option is just repaint a basic grey, which we can do as part of our normal graffiti abatement.

Let me know how you want us to proceed.

Thanks

Rick
